Product code: SP16b
Description: Universal lighting kit for Analog, O2 and SSD cars
New product / replacement: Replaces SP16
Difference from replaced item: connector added to link to the O2 and SSD in-car controllers, rear LEDs lightness improved

- The pack includes a new connector to link the lighting kit to the O2 and SSD boards: with the oXigen system, it's possible to switch on/off lights by using a button on the controller.
- The lightness of rear lights has been improved.
